

DEKO OCEAN GD B15 GLAZED DOORS

The GD B15 glazed doors are an integrated part of the world's probably lightest fire classified fully glazed partitioning system for cruise ships, ferries and luxury yachts.

The doors are fire tested at internationally recognized and accredited fire institutes and certified by Bureau Veritas.

A COMPLETE DOOR SYSTEM

The doors are developed as a complete system where all parts of the doors are designed to match the design of the GP B15 partitions – a minimalistic narrow aluminium frame is all that meets your eye.

DEKO Ocean GD B15 are available as single or double doors and can be built into GP B15 partitions and other types of partitions.

DEKO Ocean GD B15 doors have been

fire tested and classified at the Danish Institute of Fire and Security Technology (DBI).

NARROWER AND LIGHTER

The doors are an integrated part of the DEKO Ocean partition concept that is up to 25% narrower and 25% lighter than most of the other competing systems on the market today.

COLOURS AND SURFACE FINISHES

GD B15 door frames are supplied in natural anodised aluminium as standard and powder coated colours are also available. In addition, the profiles can be supplied

with special surface finishes such as copper look, stainless steel look, etc.

APPLICATION

DEKO Ocean GD B15 can be furnished with various high quality marine-type hardware and accessories.

The doors can be supplied as self-closing and automatic, as well as with anti-panic function. Custom-made designs are available on request.

TYPE SUMMARY

Type	Fire resistance	Door leaf thickness	Door weight	Glass weight (m2)
Single door	B15	74mm	48kg ¹	31kg
Double door	B15	74mm	76kg ¹	31kg

Type	Max. door frame size	Max. door leaf size	Sound insulation (Rw)
Single door	1400*2400mm	1339*2369mm	33-40dB ²
Double door	2390*2400mm	1173*2345mm	33-40dB ²

1) Standard door size (frame+leaf): 900*2000*74 and 1800*2000*74

2) The airborne sound insulation of DEKO Ocean GD B15 depends, among other things, on the glass type installed and door sill.

Please be aware that drop sealant can be delivered in various solutions and door stops are available on request.
